# ARMORCLAD

## COMMERCIAL AND RESIDENTIAL FLAKE EPOXY KITS

**ArmorClad is a 100% high solids formulation.** That means that there is nothing to 'cure out' of the epoxy so the thickness you apply it at is the thickness it dries to! It will not shrink as it cures. Lower percentage solids epoxies, cycloaliphatic epoxies, or single component epoxies cannot even come close to the technical performance of ArmorClad.

- Our special Adaptive Molecular Technology uses proprietary cross-linking chemistry to ensure the best product possible.
- Mix parts A and B together to create a bond that is over 10 times stronger than steel!
- Easy maintenance! Keep it clean and free of debris.
- No special skill required to apply ArmorClad.
- ArmorPoxy supplies all materials and prep to install the floor yourself. And you'll have unlimited email and phone support from us!
- **Ideal applications:** garages, warehouses, basements, retail stores, and more
- Tens of thousands of ArmorClad kits sold over the past 25 years

**Contact our team for a sample today!**

# SPGX Polyurea

Armorpoxy SPGX is a unique one-part, (no mixing) super fast-curing Polyurea coating. Manufactured from high-performance industrial-grade resins SPGX outperforms virtually any one-part (and many 2-part) coatings on the market.

## SPGX ONE PART POLYUREA COATING

**SIZE: 1 GAL**

**COVERAGE: 300-400 SQ FT**

SPGX polyurea has long working time than epoxy and it dries in 6-8 hours. This product covers 300-400 sq. ft per gallon. There are three colors to choose from.

Clear

Gray

Tan

## SPGX POLYUREA FULL BROADCAST KIT

**SIZE: 300 & 600 SQ FT KITS**

The SPGX Polyurea Full Broadcast kit contains everything you need to create a full broadcast (Terrazzo look), with no mixing and minimal floor preparation required. Due to its fast-curing times, SPGX Polyurea can often be applied in a single day! There are 9 color combinations to choose from.

**EXAMPLE OF FULL  
BROADCAST**

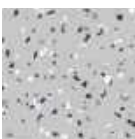

## SPGX POLYUREA MEDIUM BROADCAST KIT

**SIZE: 300 & 600 SQ FT KITS**

The SPGX Polyurea Medium Broadcast kit contains everything you need to design your floor, with no mixing and minimal floor preparation required. Due to its fast-curing times, SPGX Polyurea can often be applied in a single day! There are 9 color combinations to choose from.

**EXAMPLE OF MEDIUM  
BROADCAST**

# ARMORPOXY PRIMERS

Epoxy Primer

## ARMORPOXY II/ ARMORULTRA EPOXY PRIMER

**SIZE: 2 GAL | 5 GAL | 10 GAL**  
**COVERAGE: 500 - 600 SQ FT PER 2 GAL**  
**VOC: STANDARD & LOW**

ArmorUltra primer comes in a standard and low voc version. The primer is used as standard heavy duty primer for all ArmorPoxy Epoxy Systems. Available in standard solvent based formula (1:1 mix ratio or 4:1 low voc mix ratio). Super tenacious bonding to concrete. This primer can extend coverage of epoxy up to 25% versus epoxy directly onto bare concrete.

Epoxy Primer

## NOVOLAC ACID RESISTANT PRIMER

**SIZE: 1.5 GAL | 3 GAL**  
**COVERAGE: 200 SQ FT PER GAL**

ArmorPoxy Novolac acid resistant primer can be used as a base coat for a multi-layer system or as a standalone cost effective protective coating. Colors: clear, light gray, medium gray, and tile red.

Multi Surface Primer

## NO PREP PRIMER

**SIZE: 1 GAL**  
**COVERAGE: 500 - 600 SQ FT ON SMOOTH CONCRETE**

ArmorPoxy No Prep Primer is a revolutionary single-component, sol-gel-based fusion primer designed for seamless application directly onto surfaces. No Prep Primer eliminates the need to prep by etching or grinding, saving significant time and money. Ideal for where dust is created by grinding or shot blasting is an issue. Once applied with a acetone sprayer, simply wait 10-15 minutes for the No Prep to get 'tacky' and then apply your coating.

# PRIMERS

SIZE: 2 GAL  
COVERAGE: 500-600 SQ FT PER 2 GAL

Epoxy Primer

## FAST SET PRIMER

Fast set primer dries to touch 1-2 hours to facilitate faster application of epoxy systems and garage floors. Low odor/ Low VOC.

SIZE: 1/2 GAL | 2 GAL | 10 GAL  
COVERAGE: 200-320 SQ FT PER GAL

Epoxy Primer

## OIL STOP PRIMER KIT

Our unique 2-part primer is designed to prime oil, grease or petroleum contaminated concrete surfaces. Allows for excellent adhesion of ArmorClad, ArmorUltra and ARMORPOXY II and virtually any epoxy coating.

Size: Quart | Gallon  
Coverage: 300-400 SQ FT PER GAL

Epoxy Primer

## FLASH BOND BONDING PRIMER

Flash Bond is a specialized nano-technology liquid primer used as pre-treatment for the bonding of virtually all coatings and epoxies to porous & non porous surfaces such as tile, vinyl, linoleum, fiberglass, ceramic, composite decking, glass, glazed block, wood, metal, Cool Deck, etc.

SIZE: 1.5 GAL  
COVERAGE: 150 SQ FT PER 1.5 GAL

Epoxy Primer

## MOISTURE BARRIER PRIMER

Moisture Barrier Epoxy is a 2-part, 100% solids primer designed for use over bare concrete. This coating will greatly reduce vapor emissions and is suitable for environments with up to 20lb/24hr/1000 sq ft of moisture vapor.

SIZE: 5 GAL  
COVERAGE: 200-300 SQ FT PER GAL

Surface Bond Primer

## SURFACE BOND PRIMER

Surface Bond Concrete Primer is an Acrylic Adhesion Promoter that helps to enable a super strong bond of Armorpoxy's Surface Bond LT and HD products.

SIZE: 1 GAL  
COVERAGE: 400 - 450 SQ FT PER GAL

Armor Renew Primer

## ARMOR RENEW PRIMER

Armor Renew Clear Primer for use with Armor Renew Resurfacer. Must be used with Armor Renew on wood surfaces only (concrete surfaces do not require primer). Not required for Armor Renew Smooth Version.

# TOPCOATS

## 2-PART MILITARY GRADE POLYURETHANE TOPCOAT

**SIZE: 1.5 GAL | 3 GAL**  
**COVERAGE: 525 - 600 SQ FT PER 1.5 GAL**  
**VOC: STANDARD VOC**  
**INDOOR APPLICATIONS**

Ultra high performance topcoat gives your floor the utmost protection against ultra-violet rays (sun) and damage from chemicals, oils, acids etc. Can be applied direct-to-metal for outdoor use, giving excellent UV and rust protection..

**Also Available in  
Low VOC Formula**

## ULTRAGLAZE 1-PART TOPCOAT

**SIZE: 1 GAL**  
**COVERAGE: 600 - 700 SQ FT PER 1 GAL**  
**INDOOR APPLICATIONS**

Ultraglaze is an amazing water clear topcoat that can be used over most any surface. Perfect for topcoating our regular epoxy, and most other coatings to add significant life and shine. Can be applied to latex, acrylic and oil based type of paints including epoxies. Easy one part (no mixing) application. Cleans up with water.

## NOVOLAC ACID RESISTANT TOPCOAT

**SIZE: 1.5 GAL | 3 GAL**  
**COVERAGE: 100 SQ FT PER GAL**  
**INDOOR APPLICATIONS**

High performance topcoat gives your floor the utmost protection against ultra-violet rays (sun) and damage from chemicals, oils, acids etc. 2:1 mix ratio. Used in hostile environments such as battery storage areas, wine/beer facilities, chrome plating plants and similar environments

## 1-PART URETHANE MILITARY GRADE TOPCOAT

**SIZE: 1 GAL**  
**COVERAGE: 350 - 500 PER 1 GAL**  
**INDOOR APPLICATIONS**

ArmorUltra Military Grade 1 Part topcoat. Clear only. Formulated for walkways, parking areas industrial floors with heavy traffic. Has higher solids than standard topcoats. Designed for the ultimate in epoxy protection. Lower odor than traditional solvent based topcoats.

# COVAL - TOPCOAT & SEALER

## ULTIMATE TOPCOAT (UTC)

**SIZE: 1 GAL**

**COVERAGE: 250 - 350 / GAL**

Coval UTC is the epitome of surface protection, a thin-film, single-component coating meticulously crafted to safeguard your floor and decorative coatings from the rigors of wear and the onslaught of harsh chemicals. Using the most advance Silicone/Ceramic technology, UTC protects surfaces from oils, fuels, solvents, tire stains, acids and chemicals. UTC is more resistant than urethanes or polyaspartics. Spays on easily with acetone-type garden sprayer.

## CONCRETE PRIMER

**SIZE: 1 GAL**

**COVERAGE: 300-400 SQ FT / GAL**

Coval Concrete Primer is used as a first coat for the application of Coval Concrete Protector. Establishes a strong covalent bond with the substrate, and it's effortlessly and swiftly applied using an acetone pump sprayer (carried by Armorphoxy). Can be used on floors, retaining walls, infrastructure, and various precast concrete structures.

## CONCRETE COATING

**SIZE: 1 GAL**

**COVERAGE: 300-400 SQ FT / GAL**

A High performance topcoat made of silicone/ceramic technology it resists almost all chemicals and fluids and is more resistant to tire staining than any urethane or polyaspartic. Can be used on concrete, bricks, cement block, driveways, paths, cement overlays. Must use Coval primer with Coval Concrete Coating

## EPOXY MORTAR INFORMATION

- ARMORPOXY's epoxy mortar systems is a strong and durable flooring option.
- Exhibits amazing adhesion and resists 'pop out' like cement-type patches.
- Each Mortar system contains two components of part A & B, plus a special aggregate.
- The three components get mixed together to form an incredibly durable 'epoxy mortar' that gets troweled onto your surface.
- **Ideal usage:** Floor leveling, hole filling, patching, concrete resurfacing, etc. Can withstand up to 50,000 lbs/sq. ft. Compressive strength is 1,150 lbs.
- **Recommended** for a high traffic areas where a seamless floor is desired. Please note that shot blasting or rough diamond grinding is required for proper adhesion.

## MORTAR SYSTEMS

### REPAIR PRODUCTS

- **EPOXY MORTAR COMPLETE KIT 2 GAL, 5 GAL & BULK SIZE**
  - **Bulk Kit** (2.25 CU FT) – Coverage 108 sq.ft @ 1/4" thick. Wt. 310 lbs total per kit.
  - **5 Gallon Kit** (.45 CU FT) – Coverage 21.6 sq.ft @ 1/4" thick. Wt. 65 lbs total per kit.
  - **2 Gallon Kit** (.11 CU FT) – Coverage 5.3 sq.ft @ 1/4" thick. Wt. 26 lbs total per kit.
- **LOW TEMP MORTAR PATCH TO -10 DEG F**
  - Each kit when mixed will cover 3.8 sq.ft @ 1/4" thickness.

## MORTAR FLOOR COATINGS

- **SELF LEVELING URETHANE MORTAR SLURRY WITH MIXER**
  - **50 lb Kit** covers 41 sq.ft @ 1/8" Can be laid up to 1/2" thickness.
  - **Colors:**

Tile Red

Med. Gray

# MORTAR SYSTEMS

## BLACK EPOXY ASPHALT MORTAR KIT

- Super hard epoxy resin-based black mortar patch designed for repairing damaged areas on asphalt. Ten times stronger than asphalt and does not soften in the sun.
- Kit comes with black "coal tar" epoxy and hardener, as well as silica aggregate. Simply mix A & B together, then pour in sand until thick and paste-like, then apply.
- Looks like asphalt when dry.
- **Coverage** is 6 sq.ft @ 1/4" depth for the 2 gal kit and 24 sq.ft @ 1/4" for the 5 gallon size.
- **Size: 2 Gallon | 5 Gallon**

# FLOOR REPAIR PRODUCTS

## FAST SET EPOXY PATCH KIT

SIZE: 1 GAL | 2 GAL

- 3-component kit of special, fast-curing A&B resin, and aggregate.
- **Short working time:** Approximately 5 minutes
- Can be walked on in less than 30 minutes and can handle forklift traffic in only one hour
- Super hard, 4,400 psi compressive strength. Kit will cure down to 20 degrees Fahrenheit
- **Ideal usage:** ramps and walkways, public areas and sidewalks where downtime is critical

## ARMORPOXY FLEXIBLE JOINT SEALANT

SIZE: 2 GAL

- 2-component (you mix A & B) technical hybrid polymer, containing both urethane and epoxy resins.
- Exhibits excellent flexibility.
- **Usage:** Used on expansion joints, cracks, parking decks, highways, bridges, and marine
- **Coverage:** 60-70 lineal feet of a 1/2" x 1" bead
- **Color:** Gray only

# FLOOR REPAIR PRODUCTS

## CLEAR CRACK REPAIR EPOXY PUTTY GEL

**SIZE:** 1/2 GAL | 2 GAL

**COVERAGE:** 500 LINEAL FT PER 1/2 GAL

- High performance 2 part epoxy that you mix together with locally bought playground sand to fill all types of cracks, including those on vertical surfaces. Can be mixed as loose or as dry a compound as desired.
- Five times stronger than concrete and will never chip out
- 100% solids formulation.
- Zero VOCs and little odor.
- Cures over night and can be grinded smooth if needed
- **Coverage:** 500 lineal feet for the 1/2 Gal size kit, 2000 lineal feet for the 2 gal kit. Less coverage for larger cracks.
- **Color:** Clear (Opaque when dry)

## CRACK REPAIR EPOXY PUTTY

**SIZE:** 1/2 GAL | 2 GAL

**COVERAGE:** 500 LINEAL FT PER 1/2 GAL

- 2 part (1:1 mix ratio) epoxy putty that you mix together to fill all types of cracks, including vertical surfaces
- Goes on like 'Spackle', but five times stronger than concrete
- Can fill cracks up to 3/16" deep and several inches wide without the use of aggregate
- For **larger/deeper cracks** and can be painted over **immediately**
- **Coverage:** 500 lineal feet for the 1/2 Gal size kit, 2000 lineal feet for the 2 gal kit. Less coverage for larger cracks.
- **Color:** Gray only

## INSTANT 1 HOUR CRACK AND FLOOR REPAIR DOWN TO 0 DEGREE FARENHEIT

**SIZE:** 2 GAL

**COVERAGE:** 150 Lineal Feet

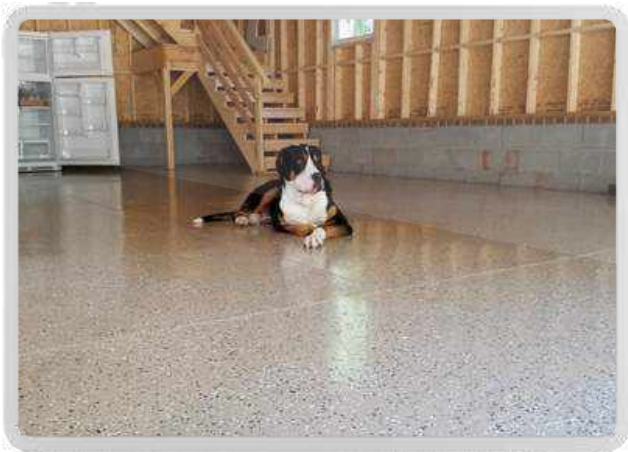

- Cures in 10-15 minutes. Recoat or open to forklift traffic in 1 Hour
- Can be applied down to zero degrees Fahrenheit.
- Mix 1:1 and then immediately pour into area to be repaired.
- 100% solids formulation.
- Zero VOCs and little odor.
- Can be painted over in **1 Hour**
- **Coverage:** 2 gal set fills 462 cubic inches, or about 150 lineal feet of a 1/2" wide by 1/2" deep crack.
- **Color:** Gray

## BACKER FOAM FOR CRACKS, 50'

- 50' roll of foam filler for use as support for cracks.
- Used for support of epoxy mortar and other crack fillers to prevent 'sagging' into a crack. Insert into crack, leaving approximately 3/8" depth before applying crack filler
- Can be used on cracks 1/4"-3/8" wide.
- Available in 1/2" or 3/8" Dia.
- **Color:** Black/Charcoal Color
- **Size:** 50 feet

# TOOLS & ACCESSORIES

## COVE TOOL

- Heavy duty curved hand trowel designed for making 1/4 round coves between walls and floors, where a smooth transition is required for ease-of-cleaning or by code.
- Use with our Epoxy Mortar Resin to make mortar or our Cove Mortar Kits.

## SPIKE SHOE BOTTOMS

One size fits all shoe bottoms aid in the back-rolling process and to also make it easier to apply flecks/chips to ArmorFleck, ArmorGranite, and non-skid additive on wet floor. Aids in getting the right 'look' for any ArmorPox coating floor for even application of the flakes, metallic pigments, and coating. Comes with supplied nylon straps to affix to shoes.

# TOOLS & ACCESSORIES

**Size: One size fits all**

## RESPIRATOR

Comfortable respirator can be used for application of any of our solvent-based products. NIOSH type government-approved for organic vapor use. Easy, comfortable fit. Lightweight and well balanced.

## ARMORPOXY BRAND POWER MIXER

Use this handy heavy duty mixer on your power drill to make it easier to mix any coating. A great time-saver!

## SURFACE BOND PAIL MIXER

Mixer 30" with 5"x5" Paddle for mixing of Surface Bond Coatings. Plated to prevent rusting. Hex shaft.

## MOISTURE TEST KIT

Complete moisture test kit for testing moisture levels coming up through your floor. Kit also includes an alkalinity test to determine the PH level of your floor and if there are residual acids or alkalai present.

## COMMERCIAL GRADE FLOOR SCRAPER

Heavy-Duty Floor scraper makes fast work of floor prep. Excellent for removing paints, epoxies, mastic, tiles, etc. 6' long handle with padded grips for secure floor scraping. Includes tempered 6" wide floor scraping blade.

**Size: 1/8" | 3/16"**

## NOTCHED SQUEEGEE 1/8" OR 3/16" NOTCH SIZE

Used to apply epoxy at 10-15 mil thickness under normal conditions. Essential for spreading thick epoxy out evenly. Backrolling is recommended after spreading with squeegee.

## FLAT SQUEEGEE

Use this to apply a thin coat of less than 100% solids epoxy or primer when doing a large area at a range of 3-5 mils. Back roll with 1/4" nap roller after applying with squeegee.

## CHIP-IN BRUSH 3"

Special, heavy-duty, wood-handle brush that makes it easy to "cut in" corners of floors and walls. Sturdy bristles won't pull out and this brush is 100% compatible with all of our epoxies.

# TOOLS & ACCESSORIES

## INTERLOCKING TILES MAGNUM TILE CUTTER

Super heavy duty 'guillotine' type shear makes fast work of cutting PVC tiles. Full 26" blade width can handle our largest size tile. Easy push-down handle makes clean perfectly straight cuts. Increases productivity of ARMORPOXY Tiles installation by 400%. Handle removes for easy transport.

## RENEW 4 IN ROLLER KIT W/ ROLLERS, HANDLE, SCREEN

Unique kit designed for easy application to standard 4" wide deck boards. Kit includes 4 inch metal roller handle (will accept a roller pole), 2 each of 4 inch special Renew roller pads, and a roller screen.

## DIAMOND MASTIC REMOVER TOOL

ARMORPOXY Diamond Blade Mastic Removal Tool is designed to remove stubborn coatings from concrete such as mastic, carpet or tile adhesive, and thin-set and thin mil coatings, like urethane or paint (not epoxy).

Size: 15", 16", 17", 18", 19", 20"

## DIAMOND BRUSH REMOVAL TOOL PLUS

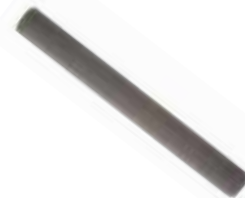

Diamond Brush PLUS Coating Removal Tool is a new heavy-duty prep tool ideally suited for concrete floors with hard-to-remove and/or multiple layers of coatings including epoxies, mastic, etc.

Size: 15", 16", 17", 18", 19", 20"

## DIAMOND BRUSH PREP TOOL

The ARMORPOXY Diamond Brush™ patented metallic blades are affixed to special plats that fit standard floor buffers. A #100 diamond grit tool. Fits on standard floor buffers!

## EPOXY 18" ROLLER COVERS 1/4" NAP W/ END CAPS

Specially designed for epoxy use 18" roller covers come with 2 end caps ea. for use on our 18" heavy duty roller frames. Lint free for use with all epoxies and other types of floor coatings. Large roller size can coat up to 5,000 sq ft per day.

## ARMORPOXY TILES EDGE AND TILE ADHESIVE

Tube of high performance Loctite Brand polyurethane adhesive. Works great with locking down SupraTile edging and affixing Glue On Ramp Edging to SupraTiles.

Size: 4" | 9"

## ARMOR RENEW TEXTURED ROLLER PADS

Special Armor Renew foam roller for application of Armor Renew on concrete or wood surfaces. Due to the textured/thick consistency of the Armor Renew, rollers will 'wear', requiring 1 roller per 200-300 sq. ft or surface.

Size: 4" | 9"

## ARMORTRAK ROLLER FOR TEXTURED 4 IN. AND 9 IN.

Special foam roller required for use with ArmorTrak Textured Coating to evenly disburse the textured granules and to help to prevent uneven application.

# TOOLS & ACCESSORIES

Size: 48OZ | 2 GAL

## INDUSTRIAL ACETONE PUMP SPRAYER

Industrial grade sprayers used to apply ArmorPoxy nano technology coatings. Ideal for application of coval and premera products.

Size: QUART

## TIRE STAIN REMOVER

Armor Tire Stain and Black Streak remover can be used to remove tire stains over bare concrete and epoxy coated floors. Specially formulated to not harm floors and comes in a ready to use quart size bottle with spray nozzle attachment.

## RUST CONVERTING PRIMER

Rust-converting primer is meticulously crafted to halt and metamorphose existing rust into a primer that can be coated over with most any product such as acrylics and urethanes. It provides a comprehensive and enduring solution to all your rust-related woes.

## PARKING PADS

Our Parking mats help you park in the same spot each time to prevent damage to your car and walls. Also helps to protect your floor coatings from hot tire pickup.

Size: 18"

## APPLICATOR PAD

Applicator pads used with microfiber mop for solvent based cleaners and other sealers.

Size: 18"

## MICROFIBER APPLICATOR MOP

Microfiber mop head with adjustable handle used with applicator pad 18" to apply coatings. Can also be used to clean and prep floors with solvent based cleaners such as denatured alcohol. Pads not included.

# SUPRATILE

BY ARMORPOXY

## INTERLOCKING FLOOR TILES

### Less Prep, Installation Time, and Maintenance!

SUPRATILES are available in a wide variety of thickness, colors, types, surfaces, and design.

- SUPRATILES are manufactured from proprietary PVC polymers that are injected at over 500 tons of pressure.
- SUPRATILES are the LOW COST option for covering old, worn, or problematic floors.
- SUPRATILES install in hours, instead of many days, with little or no dust or dirt associated with epoxy floors. Downtime is held to a minimum!
- SUPRATILES are normally loose laid on the floor on virtually any surface with little, or no surface prep (adhesive can be used if desired), and its unique interlocking molded teeth lock them tightly into place.
- No special tools are needed! All you need is a rubber mallet and a small electric saw for trimming.

### Applications

- |  |                                      |
|--|--------------------------------------|
| • Factories                              | • Laboratories                       |
| • Warehouses                             | • Food and Vending areas             |
| • Shops                                  | • Banks and offices                  |
| • Firehouses                             | • Aircraft hangars                   |
| • Retail outlets                         | • Exhibition floors                  |
| • Sports and fitness centers             | • Commercial and residential garages |
| • Car dealer service areas and showrooms |                                      |
| • Schools and colleges                   |                                      |

# SUPRATILE INDUSTRIAL PVC INTERLOCKING TILES

INDOOR

## 4.5 MM T JOINT & DOVETAIL SERIES

- 4.5 MM **T-Joint or Dovetail** Coin, Textured Pattern, or Diamond Pattern
- Our most economical and popular tile is perfect for garages, basements, high-foot-traffic-areas, and all light-medium duty applications.
- Available in Raised Coin Pattern or Textured Pattern. Traditional T-Joint connection.
- Tile size T-Joint coin & Textured: 20.5" square (2.9 sq.ft / Tile)
- Tile Size Dovetail Diamond: 20" square (2.7 sq.ft / Tile)

## 5.5MM SLATE HIDDEN JOINT SERIES

- 5.5 MM Dovetail Hidden Joint
- Excellent for break rooms, playrooms, hallways, meeting areas, etc.
- Available in Raised Coin Pattern or Textured Pattern.
- Each tile is a 18" square (2.25 sq.ft /tile)

## 6.5 MM T JOINT

- 6.5 MM T-Joint Coin or Textured Pattern
- Our most popular tile for commercial use. Ideal for commercial and industrial applications like fire houses, factories, loading docks, and any other application with heavier-duty usage.
- Traditional T-Joint Pattern available in Coin or Textured Surface
- Each tile is a 20.5" square (2.9 sq.ft/tile).

## 5.5 MM & 7MM HIDDEN JOINT LEATHER FINISH

- 5.5 MM & 7 MM leather finish
- Similar to our slate finish tyle, except with a leather-look finish.
- Each tile is a 20" square (2.7 sq.ft/tile).

## 7MM INDUSTRIAL DOVETAIL TEXTURED

- 7 MM Dovetail industrial
- Popular tile for commercial use. Ideal for commercial and industrial applications like fire houses, factories, loading docks, and any other application with heavier-duty usage.
- Each tile is a 20.5" square (2.9 sq.ft/tile).

**Notice the thickness difference!**

### COLORS

GOES ON BLUE AND DRIES CRYSTAL CLEAR AND  
REJUVENATES THE ORIGINAL COLORS OF YOUR SHINGLES

## ArmorRoof Shingle Sealer Coating

ArmorRoof Shingle Sealer is a clear glaze, waterproofing shingle sealer that rejuvenates shingles. ArmorRoof Shingle Sealer seals, protects, and adds significant water resistance.

- **1 part modified acrylic sealer** that is designed to penetrate porous surfaces and provide excellent film formation on all kinds of asphalt shingles and clay roof tiles. Seals small hard to find leaks.
- Protects your roof against mildew and fungi formation and helps to prevent dirt pileup.
- Helps to keep granular surface intact, reduces edge curling and peeling and improves general appearance and dirt resistance.
- Super easy to apply with a standard garden-type pump sprayer.
- Extends shingle life 5-10 years!
- Coverage is approximately 1,250 square ft/5 gal pail. Two coats recommended.

# ROOF COATINGS

**Size: 2.5 Gal | 5 Gal**  
**Coverage: 100 sq ft per gallon**

## ARMORROOF LIQUID RUBBER ROOF COATING - NO RUBBER GRANULES

One part Copolymer Roof Coating for the most demanding applications. Our most popular roof coating. Ideal for virtually any roof to economically 're-roof' your surface. Ideal for asphalt, metal, fiberglass, synthetic and rubber roofs.

**Size: 2.5 Gal | 5 Gal**  
**Coverage: 10 sq ft per gallon**

## ARMORROOF LIQUID RUBBER ROOF COATING WITH RUBBER GRANULES

One part Copolymer Roof Coating for the most demanding applications. Our most popular roof coating. Ideal for virtually any roof to economically re-roof your surface. Apply with squeegee or trowel. Ideal for asphalt, metal, fiberglass, synthetic and rubber roofs.

**Size: 1 Gal | 5 Gal**  
**Coverage: 50 sq ft per gallon**

## SILCON-PW PONDING WATER ROOF COATING

One-component, moisture curing silicone rubber roof coating system designed for use on existing smooth surface BUR, granulated cap sheet, well-adhered acrylic coating, concrete, metal, sprayed in place polyurethane foam and various single membrane roofing.

**Size: 1 Gal | 2 Gal**

## SILCON ROOF MASTIC

ArmorRoof Silcon-PW-BG is a unique 100% silicone product used for flashing around pipes, vents, curbs, seams, screws, etc. Can be used with or without locally purchased fiberglass mesh.

**Size: 1 Gal | 3.5 Gal**

## HIGH PERFORMANCE ACRYLIC ROOF MASTIC/CAULK

Acrylic copolymer roof caulk used to patch and repair visible gaps, seams, etc. Can be used alone or coated with ArmorRoof. Use with locally-purchased inexpensive fiberglass mesh material for larger sized gaps, tears, seams, etc to prevent sagging.

**Contact our team for a sample today!**

# ARMOR LIQUID INDOOR/OUTDOOR

## RUBBER MEMBRANE

### EASY TO USE WATER RESISTANT COATING

SIZE: 1 GAL | 5 GAL

COVERAGE: 100-250 SQ FT PER GAL \*RECOMMENDED TWO COATS

- Armor Liquid Membrane is a unique, easy to apply rubber-like coating that can be applied to many surfaces and creates an incredible water-resistant barrier that prevents water and moisture intrusion.
- **Ideal for:** balconies, decks, patios, steps, porches, basements (floors and walls), pools, ponds, and any other surface that needs full water and moisture protection. Armor Liquid Membrane is like a liquid rubber and can be applied to concrete, wood, stone, metal, tile, fiberglass, roofs, RV's, cladding, blocks and almost any other surface
- Use with **ArmorShield** topcoat for extra protection!
- Stretches up to 300% without tearing
- Can be applied with a brush, roller, or spray
- Test a liquid sample today!

### TOPCOAT FOR ARMOR LIQUID MEMBRANE

## ARMORSHIELD

### HYBRID POLYURETHANE TOPCOAT & SEALER

SIZE: QUART | 1 GAL | 5 GAL

COVERAGE: 150-200 SQ FT PER GAL

Armor Shield is a 1-Part no mixing hybrid polyurethane sealer. Can be used on virtually any surface including concrete, pavers, block, and wood. It can be used indoors or outdoors and it's odorless (low VOC) makeup allows for it to dry extremely fast.

- Perfect topcoat for Liquid Membrane
- Recoat in as little as 30 minutes per coat making 1 day installations easy
- Simply brush or roll on the material and let it dry
- 3 coat minimum recommend if using as a standalone coating
- UV stable making for a great sealer on many outdoor applications such as driveways, patios, decks, pavers and many more
- Sold in Gloss only finish and comes in 9 colors including clear

# SURFACE BOND HEAVY DUTY ASPHALT AND CONCRETE COATING

## SURFACE BOND

- Surface Bond helps to rejuvenate concrete and asphalt surfaces, making them look 'like new', and adding significant life and protection from the elements.
- **Ideal Usage** walkways, pedestrian areas, pool decks, bike lanes, plazas, amusement parks, driveways, parking lots, sidewalks and crosswalks, balconies, concrete decks, and virtually any outdoor surface.
- Surface bond is at minimum a two-coat system (plus primer if required).
- For parking lots and larger parking-type surfaces, **Surface Bond is a low/no VOC alternative** to smelly, tar-based sealcoats and sealers.
- **Coverage** is 60-70 sq ft/gal (240-280 square feet per pail/coat)
- **Must use Surface Bond Primer with concrete**

SIZE: 5 GAL

COVERAGE: 240-280 SQ FT / 5 GAL PAIL

Easy to apply application. Open, mix in the Surface Bond HD color pigment, and roll out!

## ARMOR RENEW INFORMATION

- Save your deck, patio, and other surfaces. Resurface with our deck paint - don't replace!
- Proprietary blend of acrylic polymers and high-performance military-grade resins with concrete and stone powders, bonding agents, and silica additives.
- **Ideal usage:** Pool decks, steps, patios, basements, decks, walkways, porches, docks, and virtually ANY wood or concrete surface! NOT VEHICLE RATED
- Armor Renew is applied at 75 sf/gal with 2 coats required
- **Super slip resistant** for use on areas that get wet such as pools, steps, docks and sidewalks.
- Fills in splintered areas, small cracks, fissures, spalls, splits, and other imperfections giving your surface a 'like new' look for fractions of the cost of replacement.

## ARMOR RENEW SYSTEMS

- **SIZES:** 2 GAL | 4 GAL
- **COVERAGE:** 50-75 SQ FT /GAL with 2 coats required
- **ARMOR RENEW DECK PRIMER:** 1 GAL
  - *Must use primer on wood*
- **ARMOR RENEW DECK CLEANER:** 1 GAL

# 2-PART EPOXY

OUTDOOR

## POOL PAINT

SIZE: 2 GAL

COVERAGE: 150-250 SQ FT ON 1ST COAT & 250-400 SQ FT ON 2ND COAT PER 2 GAL

\*RECOMMENDED TWO COATS

- Industrial grade 2-part epoxy high build coating formulated to give maximum protection to your swimming pool. Used by government and municipalities for coating their pools. High solids formulation helps to hide minor divots and imperfections in surfaces and will 'smooth out' pool surfaces
- Can be applied over most types of epoxy pool coatings in good condition, as well as bare concrete, plaster, gunite and fiberglass. Can be used in jacuzzi's and hot tubs
- Dries quickly, durable, and resists fading, blistering, chemicals and abrasion
- Mix ratio is 1:1
- Designed for maximum protection against UV rays, automatic pool cleaning machines and chlorine
